• FAX 1-630-543-8488

## 5002A 1/4" Die Grinder

### Features include:

- 1/4" collet size
- Safety lever throttle
- Rear exhaust
- All ball bearing construction
- Compact and lightweight
- Rib textured handle provides firm grip
- For blending, smoothing, porting
- 22,000 RPM
- Approx. 0.33 HP

**\$20.93**

## 5003C 1/4" Angle Die Grinder

### Features include:

- 1/4" collet size
- Safety lever throttle
- Rear exhaust
- Compact lightweight design
- Ball bearing construction
- For sanding, deburring, porting, polishing
- Right angle provides easy access
- 20,000 RPM
- Approx. 0.33 HP

**\$39.40**

## RC2215 1/2" Impact Wrench

### Features include:

- Pin clutch design
- Handle exhaust directs air away
- For automotive repair, body shop, front end; general industrial use
- 185 - 275 ft-lb torque range
- 7,800 RPM

**\$76.53**

## 3007 3/8" Drill - Non Reversible

### Features include:

- Positive action trigger controls speed
- For drilling, counter sinking, and wire brushing
- 2,600 RPM

**\$47.47**

## 5007 5" Angle Grinder

### Features include:

- Type 27 wheels, abrasive discs
- Rugged lightweight alloy housing
- Spiral bevel gearing for extended life, low vibration
- Removable dead handle
- For weld prep and smoothing, rust removal, deburring
- 3/8"-24 spindle
- Safety lever, Front right exhaust
- 5/8"-11 adapter included
- 11,000 RPM

**\$92.00**

## 1001 3/8" Ratchet Wrench

### Features include:

- Ball & needle bearing construction for long life
- Internal ring gear with three planetary gears for long life
- For body shop work, radiator removal & replacement, spark plug, air conditioning & water pump replacement
- 25 ft-lb approx. torque output
- 160 RPM

**\$38.67**
